

## Chapter 4

# Interfaces

This section provides information on the various interfaces used on Silicon Graphics platforms. For each interface the kind, or kinds, of connectors used are shown and where there is more than one implementation of the interface, a table shows which variety of interface is available on the different SGI platforms.

To find out where a particular interface connection for a specific platform can be found, consult the Platform section of this document. There you will find a drawing of the I/O area for each platform.

The Interfaces are divided into general categories. These categories are listed below:

Serial Ports .....	page 4-5
General Information .....	page 4-5
9 Pin (DB-9), EIA-232 Serial Port .....	page 4-11
9 Pin (DB-9), EIA-422 Serial Port .....	page 4-13
9 Pin (DB-9), Audio/Serial Option (ASO) EIA-232/422 Serial Port .....	page 4-14
9 Pin (DB-9), PC Compatible EIA-232 Serial Port .....	page 4-15
9 Pin (DB-9), EIA-232/EIA-422 Serial Port (OCTANE, Origin & Onyx2) .....	page 4-16
8 Pin Mini-DIN Serial Port .....	page 4-17
8 Pin Mini-DIN Diagnostic Port .....	page 4-18
9 Pin (DB-9) Diagnostic Port .....	page 4-19
8 Pin DIN Powered Peripheral Port .....	page 4-20
4 Pin Mini-DIN Power Ports (+5 and +12 Vdc) .....	page 4-21
Keyboard and Mouse Ports .....	page 4-22
General Information .....	page 4-22
DB-15 Keyboard/Mouse System Connection .....	page 4-26
DB-9 Keyboard/Mouse System Connection .....	page 4-27
6 Pin Mini-DIN Keyboard/Mouse System Connection .....	page 4-28
PS/2 Keyboard System Connection (6 Pin Mini-DIN) .....	page 4-29
PS/2 Mouse System Connection (6 Pin Mini-DIN) .....	page 4-30
DB-9 Mouse Connection (4D Style Keyboard) .....	page 4-31

Parallel Ports .....	page 4-32
Built-In Parallel Port (DB-25) .....	page 4-34
Built In Parallel Port (36 Pin High Density) .....	page 4-36
Ikon Parallel Port Interface (DB-37) .....	page 4-37
Disk Drive Interfaces .....	page 4-39
Bus Lengths .....	page 4-39
Terminations .....	page 4-42
ESDI Disk Interface .....	page 4-43
SMD Disk Interface .....	page 4-45
IPI Disk Interface .....	page 4-47
SCSI-1 Interface (Centronics) .....	page 4-49
SCSI-2 (Narrow) High Density Interface .....	page 4-51
SCSI-2 Wide Interface .....	page 4-52
Single Ended Ultra SCSI .....	page 4-55
Monitors .....	page 4-57
Monitor Connections .....	page 4-57
Monitor Drawings .....	page 4-57
Monitor Specifications .....	page 4-61
Memory .....	page 4-65
4D and Personal IRIS (R2000) Memory Modules .....	page 4-66
Indigo R3K/Personal IRIS Memory Module .....	page 4-66
Indigo/Indigo2/Indy Memory Module .....	page 4-67
Onyx/Challenge Memory Modules .....	page 4-67
O2 Memory Module .....	page 4-68
OCTANE Memory Module .....	page 4-68
Origin200/Origin2000/Onyx2 Memory Module .....	page 4-69
Graphics Interfaces .....	page 4-70
BNC Monitor Output (R, G, B & Sync) .....	page 4-72
13W3 Monitor Output .....	page 4-73
HD-15 Monitor Output .....	page 4-76
Graphics Output Timing Information .....	page 4-77
Supported Graphics Modes .....	page 4-86
Alpha Output .....	page 4-87
Genlock .....	page 4-87
Genlock Option .....	page 4-88
Stereo Sync Signal .....	page 4-89
Swap Ready Output .....	page 4-91

Video Interfaces .....	page 4-92
Composite Input & Output .....	page 4-93
S-Video (Y/C) Input & Output .....	page 4-94
Analog Breakout Box Connection .....	page 4-96
Analog Component Video Input & Output .....	page 4-97
CCIR 601 Serial Digital Video Input & Output .....	page 4-97
Frame Grab Output (BNC) .....	page 4-97
Video Sync Loopthru (BNC) .....	page 4-97
CCIR 601 Parallel Digital Video Input & Output .....	page 4-98
SGI Digital Video Interface .....	page 4-99
Audio Interfaces .....	page 4-102
Connector Notation .....	page 4-104
Audio Line In and Line Out Connections .....	page 4-105
Microphone Input and Headphone Output .....	page 4-106
AES Stereo Digital Audio Input/Output .....	page 4-107
ADAT Optical Digital Audio Input/Output .....	page 4-108
Speaker Power Connection .....	page 4-108
CPU Interfaces .....	page 4-109
3 Conductor Audio Jack and Plug .....	page 4-109
Pinout .....	page 4-110
Interrupt Inputs .....	page 4-110
Interrupt Outputs .....	page 4-110
Bus Interfaces .....	page 4-111
VME32 (9U) .....	page 4-114
VME32 (6U) .....	page 4-117
VME P2 Expansion .....	page 4-119
VME64 (9U) .....	page 4-121
GIO32/32-bis .....	page 4-123
GIO64 Bus .....	page 4-124
EISA Bus .....	page 4-125
PCI Bus .....	page 4-128
XIO Bus .....	page 4-132

Backplanes and Board Slots .....	page 4-133
9U VME Backplanes .....	page 4-133
GIO32/32-bis Board Slots .....	page 4-138
EISA/GIO64 Backplane .....	page 4-139
O2 PCI Card Slot .....	page 4-141
OCTANE PCI Slot Location .....	page 4-141
Origin200 PCI Slot Location .....	page 4-142
Origin2000 and Onyx2 PCI Slots .....	page 4-142
OCTANE XIO Slots .....	page 4-143
Origin2000 XIO Slots .....	page 4-144
Onyx2 XIO Slots .....	page 4-144
Network Connections .....	page 4-145
Ethernet AUI Connection .....	page 4-146
Ethernet RJ-45 Connection .....	page 4-147
ISDN Connection (RJ-45) .....	page 4-148
Craylink Interconnect .....	page 4-148
I/O Panel Plates .....	page 4-149
Type I I/O Panel Plate .....	page 4-149
Type II I/O Panel Plate .....	page 4-150
Type III I/O Panel Plate .....	page 4-151
Type IV I/O Panel Plate .....	page 4-152
Drive Sleds/Modules and Drive Mounting .....	page 4-153
Twin Tower Drive Module .....	page 4-155
Personal IRIS Drive Sled .....	page 4-156
Indigo Drive Sled .....	page 4-157
Indigo2 Drive Sled .....	page 4-158
Onyx/Challenge Drive Sled .....	page 4-159
O2 (SCA) Drive Sled .....	page 4-160
OCTANE/Origin/Onyx2 (SCA) Drive Sled .....	page 4-161
15 Slot Twin Tower Captive Drive .....	page 4-162
Predator Captive Drives .....	page 4-163
Personal IRIS Captive Drive .....	page 4-164
Indy Captive Drives .....	page 4-165
Origin200 5.25" Drive Carrier .....	page 4-166
