HP SmartStart Scripting Toolkit Linux and Win32 Editions

Support Matrix

Overview

The Linux and Win32 editions of the HP SmartStart Scripting Toolkit provide a collection of tools that assist with configuring HP ProLiant server hardware and installing your operating system.

Hardware support

The Linux and Win32 editions of the SmartStart Scripting Toolkit support the following servers. Although all of the Toolkit utilities except CONREP should run on all unsupported servers, the utilities have been tested only on the listed servers and options.

NOTE: Embedded LSI Advanced Technology Attachment (ATA) RAID controllers in the HP ProLiant DL320 G2, ML330 G2, ML310, and ML330 G3 Servers are not currently supported by the Linux and Win32 editions of the SmartStart Scripting Toolkit and must be configured manually. They will be supported in a future release of the Toolkit.
