

# HP ProLiant 100 series family of servers.

Simply flexible.

HP's simple, flexible approach means you can easily add what you need—whenever you need it.

## Simple HP ProLiant 100 series.

Customize to meet your needs now—with the headroom to grow later.

The HP ProLiant 100 family of servers was designed with a variety of servers and options to make the most of your IT resources and budgets.

Pluggable components make it simple for you to add and replace on the fly. And that makes it simple to expand capabilities with confidence as your business grows.

Equally important, HP's worldwide, world-class service and support are always on call to keep your business running. It's another reason HP ProLiant is the #1 family of servers on earth.<sup>1</sup>
