About This Device

The Stabilizing Bracket allows you to secure your Flat Panel Monitor Rack mount (TFT450R) to the rack using thumbscrews.

Kit Contents

■ Stabilizing bracket with thumbscrews (2)

■ 8-32x1/4 screws (4)

Rack Considerations

Before beginning these procedures, make sure you understand and adhere to the following precautions.

⚠ **WARNING:** To reduce the risk of personal injury or damage to the equipment, be sure that:

- The leveling jacks are extended to the floor.
- The full weight of the rack rests on the leveling jacks.
- The stabilizing feet are attached to the rack if it is a single rack installation.
- The racks are coupled together in multiple rack installations.
- Only one component is extended at a time. (A rack may become unstable if more than one component is extended for any reason).

To install the Stabilizing Bracket:

Follow the procedures to install the Flat Panel Monitor Rackmount (TFT450R) Rack Option Kit but DO NOT install the lower, front screw in each of the rail mounting brackets and DO NOT install the Latch Bracket.

❶ If you are using the Stabilizing Bracket on an existing installation, remove the lower front screw from each rail mounting bracket.

❷ Attach the Stabilizing Bracket to each side of the plastic frame using two 8-32x1/4 screws.

❸ Push the thumbscrew into the rack.

❹ Turn the thumbscrew to tighten.
